

Mobile app to determine the standard used for your installations and find the seal best suited to your needs.

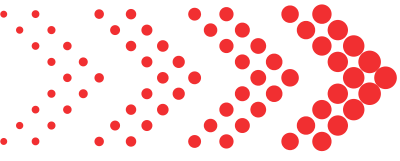

About us

Aseptconn is a leading supplier of components, products, software, and systems for sterile liquid technology, primarily in the pharmaceutical and biopharmaceutical sectors. With innovative products and expert advice, Aseptconn helps its customers sustainably improve their processes. Its extensive portfolio and diverse services make it the preferred supplier for many renowned international pharmaceutical companies.

Service Description

We have created an intuitive mobile application that allows you to quickly and easily determine the standard applicable to your installation. Simply use your smartphone and caliper: within seconds, you'll get an accurate answer. Additionally, the application helps you identify the gasket material best suited to the environment, providing a solution perfectly tailored to your needs.

App mobile

Aseptconn AG

Utilisation

Identify the applicable standard

- Launch the app and select your preferred language.
- Choose the product for which you want to identify the applicable standard.
- Measure the available diameters by following the illustrated instructions in the app.
- Enter the measured dimensions directly into the app.
- The app will automatically identify the standard that best matches the measured values for your product.

Find the material suitable for the environment

- Launch the app and select your preferred language.
- Select the product: "Tri-Clamp Gaskets"
- Scroll to the bottom of the page.
- Click on "Search Engine Media"
- Note the environment used.
- Find the most suitable material for your needs in the compatibility chart.
