

# Avoid assembly errors with a unique identification for each component

## About us

Aseptconn is a leading supplier of components, products, software, and systems for sterile liquid technology, primarily in the pharmaceutical and biopharmaceutical sectors. With innovative products and expert advice, Aseptconn helps improve its clients' processes sustainably. Its extensive portfolio and diverse services make it the preferred supplier for many renowned international pharmaceutical companies.

## Service Description

Aseptconn supports you in the traceability of your installation components by engraving an identification number or custom text of your choice. This marking, resistant to electropolishing, can be applied to stainless steel as well as various types of plastics, either in our workshop or directly at your premises.
